This manual is intended for the service technician who is seeking information about maintenance and service replacement parts. It contains a section on troubleshooting which will enable a qualified technician to locate and solve problems which may occur.

OPERATOR INSTRUCTIONS

This manual *does not* contain operator instructions. Operator Instructions in tag or booklet form are sent with each truck. Additional copies can be ordered if required. These booklets are for you and your personnel to insure years of safe, trouble-free operation of your Crown Lift Truck. For turret stockpicker operator instructions, refer to Crown publication, "TSP 6000 Operator Manual".

OPERATOR TRAINING

Crown produces a complete series of operator training programs available through your local Crown dealer. A complete listing of these and other available programs can also be found under "Training" on crown.com.

SERVICE TRAINING

Complete Service Training is available for the lift truck technician covering all Crown Lift Trucks, module systems, wire guidance, hydraulic and electrical systems. To obtain more information concerning service training, contact your Crown Dealer or under "Training" on crown.com.

REPLACEMENT PARTS

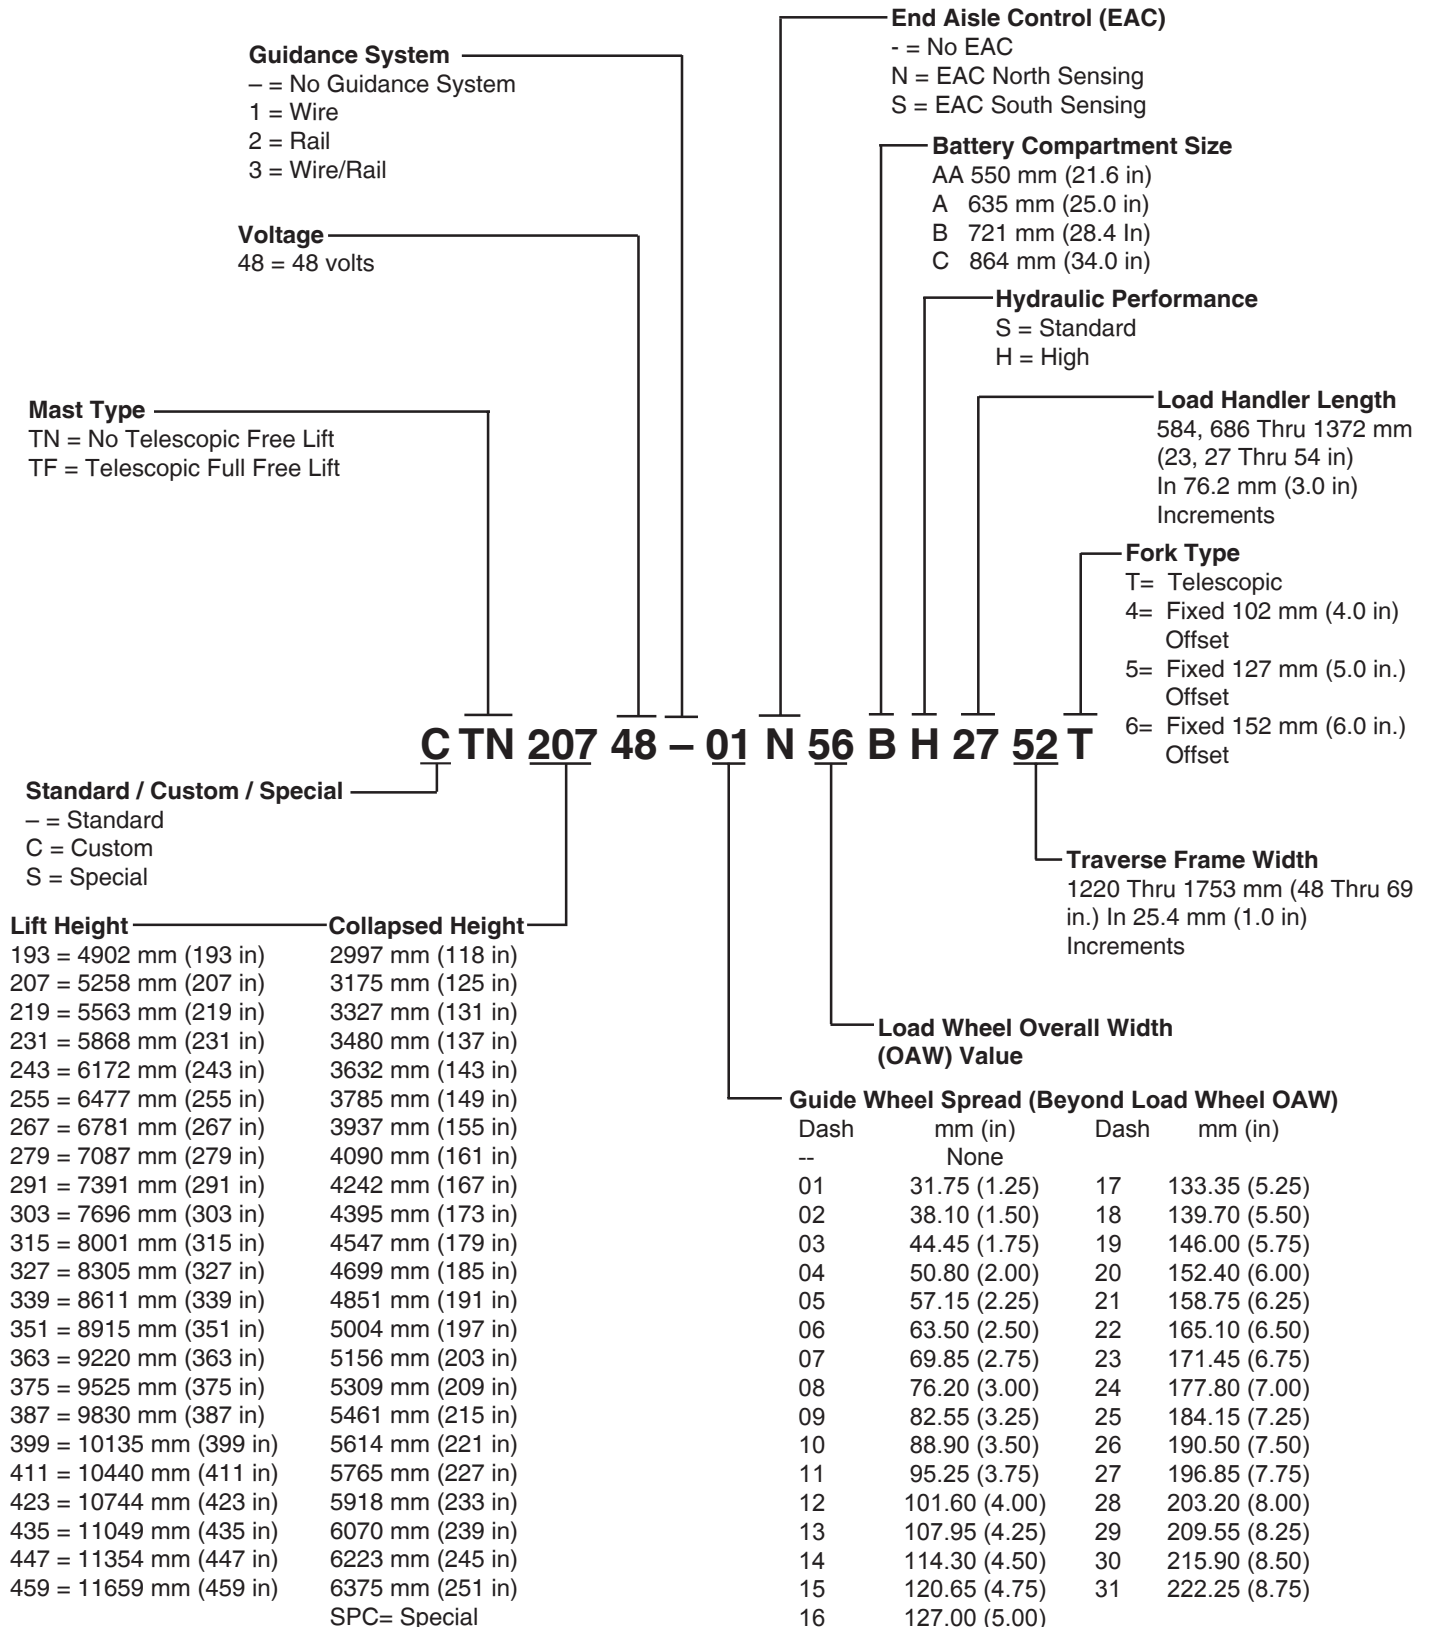

When ordering replacement parts from this manual, always specify, along with the part number, model and serial number of the truck. This information will further enable us to give correct, fast and efficient service.

For current part numbers of service manuals, operator manuals, operator training programs, truck capacities and technical specifications, contact your local dealer or at www.crown.com.
