OPERATOR'S MANUAL

NEW HOLLAND

Fiatagri. One exclusive vocation: Agriculture

The Fiatagri brand name stands today for the most complete and exhaustive line of agricultural machinery products on the market.

FIATAGRI sums up all the image and prestige of the trademarks representing it out in the field: FIAT tractors, Laverda combine harvesters, Hesston hay and forage harvesting machines and Braud multi-purpose trailed and self-propelled grape harvesters.

That is why Fiatagri, with the most complete and advanced full-line in Europe, is a real specialist, responsible for the design, engineering, manufacturing and marketing of all of its product lines.

Being part of the FIAT Group, it avails itself of the accompanying resources and scale economies to achieve always further results in product development.

Experience, tradition and constant innovation are the major features which have made possible for the Fiatagri products to become undisputed, foreline protagonists on the world scene, as witnessed by the high-standing image and preference accorded by farmers everywhere.

OPERATION

MAINTENANCE

SPECIFICATIONS

WORK SAFELY - ALWAYS

IMPORTANT NOTICES

This tractor has been designed and manufactured specifically and solely for agricultural use. Any other application will be considered non compatible with the use envisaged by the Manufacturer, who, consequently, cannot be held responsible for any damage to things or to the machine itself or for any physical injury to people deriving from uses other than agricultural ones. Always consider that with the improper use of this tractor you would also assume the personal responsibility for any consequence associated with it. The respect of the rules for tractor use, maintenance and repairs given in this Manual is an essential element qualifying the correct use of the machine as envisaged by the Manufacturer. This machine must be used, serviced or repaired only by people previously instructed on its handling features and safety rules besides being specifically authorized to operate it. The user is always responsible for the strict observance of general safety and accident prevention rules as well as of the traffic regulations if driving the tractor on public or open roads. Any un-authorized and arbitrary modification made on this machine will relieve the Manufacturer of all responsibilities for any deriving damage or injury. The Manufacturer and all the Organizations associated with its distribution network, including but not limited to national, regional or local distributors, decline any and all responsibilities for damages that may derive from the abnormal performance and behaviour of machine parts or components not specifically authorized by the Manufacturer, including the ones used for the maintenance and/or repair of products fabricated or distributed by the Manufacturer. In any case, no warranty of any sort is issued or prescribed, regarding products fabricated or distributed by the Manufacturer, against damages deriving from abnormal behaviour of parts and/or components not authorized by the same Manufacturer.

This warning sign alerts you about important messages involving your safety.

Read these safety rules attentively and strictly follow suggested precautions designed to avoid any potential danger and safeguard your health and personal safety.

You will find, throughout this Manual, the above warning sign associated with the following keywords:

CAUTION - A warning intended to prevent potential damages to the machine which might involve operator's safety.

DANGER - Associated with warnings for specific potential danger to the repairman and to any other people directly or indirectly involved.

Spare and after-sale service always close at hand

The superior quality of its original spare parts - added to New Holland's efficient organization and fast service - is the quality that ensures that a Fiatagri agricultural machine never loses its value as time goes by.

retrieval systems, a total of 21 million spare parts of more than 220,000 different items are held in store. The Centre can handle up to 6,000 orders per day.

When you buy a Fiatagri agricultural machine, you also get something that does not catch the eye, but may well prove its worth in the future, namely the company's large and efficient after-sales and spares organization. At the San Matteo (Modena) spares center, a highly modern installation with 32,000 m² under roof and equipped with electronic handling and

FIATAGRI 

An extended network of **FIATAGRI** Dealers, equipped with all the necessary means to perform any repair and overhaul work, is at your disposal.

Service

Turn to these Dealers in full confidence. You will benefit from the assistance and know-how of skilled servicemen. FIATAGRI's experience is at your service to help you solve any problem related to tractor operation and use.

Spare parts

Use genuine NEW HOLLAND parts only.
Failure to do this will:

- Cost you more.
- Not result in complete satisfaction.
- Seriously risk improper functioning of the tractor.
- Original spares are sold by the FIATAGRI Sales and Service Organization.

In all orders please quote (see page 7):

- Tractor Model and Frame Number.
- Engine Type and Number.
- the Part number of the spare part needed (listed in the spare parts catalogue).

Maintenance

These tractors were designed with the owner in mind and an effort has been made to simplify maintenance.

The purpose of this manual is to familiarize the operator with the operation and regular servicing of the tractor. Remember that the time spent on maintenance extends the life of your tractor.

Pay special attention to the instructions covering fuel filtering, air cleaner maintenance and lubrication: remember that badly filtered fuel results in injection system deterioration and irregular air cleaner maintenance leads to premature engine wear, and reckon that a tractor oil change every 200 hours is equivalent to a truck oil change every 8,000-9,000 km (5000-5500 mi).
