

ORIGINAL INSTRUCTIONS

I 404 Tractor

OPERATOR'S MANUAL

CNH Industrial (Harbin) Machinery Co. Ltd.
No. 78 Songhua Road, Core District Hanan New Industry Zone,
Harbin City, Heilongjiang Province, P.R. China
+86 4008676600 (for customer in the areas other than Xinjiang Province)/
+86 4000991805 (for customer in Xinjiang Province)

Part number 48096649

Ist edition English
February 2017

SECTION SUMMARY

1 - General Information and Safety

2 - Controls, Instruments and Operation

3 - Field operation

4 - Lubrication and Maintenance

5 - Fault Finding

6 - Accessories

7 - Specifications

8 - First 50 hour Service Forms

9 - Index

CONTENTS

Title	Page
Section 1 - General Information and Safety	
To the Owner	1-1
Product Identification	1-3
Ecology and the Environment	1-7
Safety Precautions	1-8
Safety Decals	1-16
International Symbols	1-26
Airborne Noise Emission	1-27
Section 2 - Controls, Instruments and Operation	
Cab	2-6
Seats	2-24
Handbrake, Throttle and Foot Controls	2-30
Instrument Console	2-32
Analogue/Digital Instruments	2-35
Two-speed Powershift Transmission (24 x 24)	2-65
Semi-Powershift Transmission (16 x 16 and 17 x 16)	2-71
Differential Lock and Four Wheel Drive	2-87
Section 3 - Field Operation	
Important Information	3-2
Using Jump Leads (Booster Cables)	3-9
Starting the Engine	3-10
Stopping the Engine	3-15
Turn Assist	3-17
Rear Power Take-Off	3-19
Front Power Take-Off and Hydraulic Lift	3-34
Electronic Hitch Control	3-41
Hydraulic Remote Control Valves	3-53
Load Sensing Remote Control Valves	3-62
Using Remote Hydraulic Equipment	3-74
Three-point Hitch	3-76
Quick Hitch	3-82
Linkage Stabilisers	3-86
Drawbars and Towing Attachments	3-88
Air-Operated Trailer Brakes	3-103
Front Wheel Track Adjustment	3-107
Rear Wheel Track Adjustment	3-115
Ballasting and Tyres	3-120

Section 4 - Lubrication and Maintenance

General Information	4-1
Tractor jacking points	4-7
Guard Removal	4-8
Lubrication and Maintenance Chart	4-12
Servicing: When Warning Lights Illuminate	4-14
10-hour/daily service	4-18
50-hour service	4-20
100-hour service	4-32
300-hour service	4-32
600-hour service	4-36
1200-hour/12 month service	4-44
1200-hour/24 month service	4-52
1800-hour service	4-54
Every 3 years	4-55
3600-hour/48 month service	4-56
General Maintenance - as required	4-60
Protecting tractor electrical systems	4-77
Storing the tractor	4-78

Section 5 - Fault Finding

Introduction	5-1
Engine	5-2
Transmission - 24 x 24 Two-speed Powershift	5-5
Transmission - 16 x 16 (17 x 16) Semi-Powershift	5-6
Hydraulics	5-7
Rear Three-Point Hitch	5-8
Brakes	5-9
Cab	5-9
Electrical	5-10

Section 6 - Accessories

Auxiliary Headlights	6-2
Battery Isolator Switch	6-2
Loader Subframe and Control Valve (Joystick)	6-3
Rear Remote Valve Zero Detent Kit	6-6
Front-end loader fixation points	6-7

Section 7 - Specification

General Dimensions	7-2
Vehicle Weights	7-6
Lubricant and Fluid Capacities	7-7
Engine	7-9
Fuel System	7-9
Cooling System	7-10
Transmission Options	7-10
Brakes	7-11
Rear Power Take-Off	7-11
Front Power Take-Off	7-12
Steering	7-12
Maximum Operating Angle	7-12
Hydraulic System	7-13
Three-Point Hitch	7-13
Remote control valves	7-16
Front Three-Point Hitch	7-16
Front Remote Valves	7-17
Electrical Equipment	7-17
Hardware Torque Tables	7-19

Section 8 - First 50-hour Service Forms	8-1

	NAME	SYMBOL	NAME	SYMBOL
VOLUME PER TIME (includes DISCHARGE and FLOW RATE)				
	cubic meter per minute	m ³ /min	cubic foot per minute	ft ³ /min
	litre per minute	l/min	US gallon per minute	US gal/min
	millilitre per minute	ml/min	UK gallon per minute	UK gal/min
SOUND POWER LEVEL and SOUND PRESSURE LEVEL				
	decibel	dB	decibel	dB

SECTION 1

GENERAL INFORMATION AND SAFETY

TO THE OWNER

GENERAL

This Manual has been prepared to assist you in the correct procedure for running-in, driving and operating and for the maintenance of your new tractor. Read this Manual carefully. Your tractor is intended for use in normal and customary agricultural applications.

If at any time you require advice concerning your tractor, do not hesitate to contact your authorised dealer. He has factory trained personnel, genuine manufacturers' parts and the necessary equipment to carry out all your service requirements.

Your tractor has been designed and built to give maximum performance, economy and ease of operation under a wide variety of operating conditions. Prior to delivery, the tractor was carefully inspected, both at the factory and by your dealer to ensure that it reaches you in optimum condition. To maintain this condition and ensure trouble-free operation, it is important that the routine services, as specified in Section 4 of this Manual, are carried out at the recommended intervals.

OPERATORS MANUAL

The Operators Manual supplied with your tractor is an important source of information and should be stored safely.

The manual is prepared specifically for your tractor so it is important that you make a note of the print number and issue date which can be found on the cover. In the event the manual is lost or damaged it can be replaced with the correct version.

A storage pocket for the Operators Manual can be found on the rear of the seat. The manual should be kept in this pocket at all times when not in use.

SAFETY

Pages 1-8 to 1-38 inclusive list the precautions to be observed to ensure your safety and the safety of others. Read the safety precautions and follow the advice offered **before** operating the tractor.

CLEANING THE TRACTOR

Your tractor is a state-of-the-art machine with sophisticated, electronic controls. This should be taken into consideration when cleaning the tractor, particularly if using a high pressure washer. Even though every precaution has been taken to safeguard electronic components and connections, the pressure generated by some of these machines is such that complete protection against water ingress cannot be guaranteed.

When using a high pressure washer, do not stand too close to the tractor and avoid directing the jet at electronic components, electrical connections, breathers, seals, filler caps, etc. Never direct a cold water jet at a hot engine or exhaust.

ELECTRO-MAGNETIC INTERFERENCE (EMC)

This tractor complies strictly with the European Regulations on electro-magnetic emissions. However, interference may arise as a result of add-on equipment which may not necessarily meet the required standards. As such interference can result in serious malfunction of the unit and/or create unsafe situations, you must observe the following:

- Ensure that each piece of non-Case IH equipment fitted to the tractor bears the CE mark.
- The maximum power of emission equipment (radio, telephones, etc.) must not exceed the limits imposed by the national authorities of the country where you use the tractor.
- The electro-magnetic field generated by the add-on system should not exceed 24 V/m at any time and at any location in the proximity of electronic components.

Failure to comply with these rules will render the Case IH warranty null and void.

FIRST 50 HOUR SERVICE

In Section 8, at the back of this Manual, you will find the 50-hour service reports.

IMPORTANT: *It is important the 50 hour service is carried out as recommended to ensure your tractor provides optimum performance and efficiency.*

After you have operated the tractor for 50 hours, take your tractor, together with this Manual, to your dealer. He will then perform the factory recommended 50 hour service and complete the service report sheets (pages 8-1 and 8-3). The first sheet (page 8-1) is the dealer's copy and should be removed by the dealer after the service has been carried out. The second sheet (page 8-3) is your copy of the service performed. **Ensure that you and the dealer sign both copies.**

SERVICE PARTS

It should be pointed out that genuine parts have been examined and approved by the Company. The installation and/or use of 'non-genuine' products could have negative effects upon the design characteristics of your tractor and thereby affect its safety. The Company is not liable for any damage caused by the use of 'non-genuine' parts and accessories. Only genuine Case IH replacement parts should be used. The use of non-genuine parts may invalidate legal approvals associated with this product.

It is prohibited to carry out any modifications to the tractor unless specifically authorised, in writing, by the After Sales Service department of the Company.

WARRANTY

Your tractor is warranted according to legal rights in your country and the contractual agreement with the selling dealer. No warranty shall, however, apply if the tractor has not been used, adjusted and maintained according to the instructions given in the Operator's Manual.

USE OF BIODIESEL FUELS

IMPORTANT: *Before using Biodiesel fuels in your tractor, refer to the information on page 4-5 regarding the storage and use of Biodiesel fuels.*

EMISSION CONTROLS

ATTENTION: *The engine and fuel system on your machine is designed and built to government emissions standards. Tampering by dealers, customers, operators and users is **strictly prohibited by law**. Failure to comply could result in government fines, rework charges, invalid warranty, legal action and possible confiscation of the machine until rework to original condition is completed. Engine service and/or repairs must be done by a certified technician only!*

PRODUCT IDENTIFICATION

The tractor and major components are identified using serial numbers and/or manufacturing codes.

Tractor identification data must be supplied to the dealer when requesting parts or service and will also be needed to aid in identifying the tractor if it is ever stolen.

The following provides the locations of the identification data.

1

Vehicle Identification Plate

The vehicle identification plate (1), Figure 1 is located on the left-hand radiator support. Record the information on the sample identification plate provided below.

A sample vehicle identification plate. It is divided into two main sections. The left section is titled 'AG TRACTOR' and contains the text 'CNH EUROPE HOLDING S.A.' and the 'CASE IH AGRICULTURE' logo. The right section is titled 'TRACTOR NUMBER' and contains a large blank space for the number. Below this, there are four rows of fields: 'MODEL' and 'DRIVELINE' in the first row, 'ENGINE' and 'HYDRAULIC PUMP' in the second row, 'HYDRAULIC LIFT' and 'FRONT AXLE' in the third row, and a 'Made in England' label at the bottom.

2

Tractor Identification

The serial number and model identification information is stamped on the front support (1). These numbers are also repeated on the vehicle identification plate reproduced above.

3

Engine Identification

The engine serial number and date code can be found on the engine identification plate.

The identification plate is located on top of the engine attached to the valve cover. The plate also provides information on engine adjustments and compliance with Emission Regulations where required.

Record the information below for quick reference.

Engine Serial No. _____

4

Driveline Identification

The serial number plate (1) is located on top of the transmission casing. Access to the number can be gained by removing the plate in the floor of the cab as shown in the illustration. This number is repeated on the vehicle identification plate. Record the information below for quick reference.

Driveline Serial No. _____

5

Cab Identification

The cab serial number and other information is on the OECD certification plate. This plate can be found on the right-hand side of the cab trim panel, below the rear window. Record the cab serial number below for quick reference.

Cab Serial No. _____
