

ORIGINAL INSTRUCTIONS - according to Directives 2006/42/EC, Annex I 1.7.4.1

OPERATOR'S MANUAL

T4020

T4030

T4040

T4050

Print No. 84576044

From serial No. "ZCJA12001"

English 05/2012

SECTION SUMMARY

1 – Introduction and safety measures

2 – General Information, Controls and Instruments

3 – Field operation

4 – Lubrication and Maintenance

5 – Troubleshooting

6 – Vehicle storage

7 – Accessories

8 – Specifications and Data

9 – Alphabetical Index

For your better and easier understanding of the document you'll find original text reproduced hereafter together with some notes

Clause of 2006/42/EC Annex II	EN EC Declaration of conformity According to Directive 2006/42/EC.
1.A.1	We, [1]
1.A.2	Represented by Giuseppe Gavioli, CNH Europe Holding S.A. 13, Rue Aldringen L-1118 Luxembourg
1.A.3	declare under our sole responsibility, that the product: Agricultural tractor Trade Name: [2] Model: [3] Type: [4] Serial Number: [5]
1.A.4	to which this declaration relates, fulfils all the relevant provisions of the Directive 2006/42/EC, amended by [6].
1.A.7	For the relevant implementation of the provisions of the Directive, the following (harmonised) standards have been applied: <ul style="list-style-type: none">• ISO 26322-1 part 1 or 2 Other standards: see Operators Manual
1.A.9	Place and date of the declaration: [7]
1.A.10	Name and signature of the authorised per- son: [8]

HEALTH AND SAFETY RELATED STANDARDS APPLIED TO YOUR TRACTOR

- NOISE EMISSION LEVELS are rated according to **77/311/EEC**.
- VIBRATION LEVELS are rated according to **78/764/EEC**.
- ROPS PROTECTION is certified according to **EN 15694**.

NOTE: See safety section 1 in this manual for further explanation and details on above mentioned standards and specific terminology.

METRIC AND IMPERIAL UNITS ABBREVIATIONS

TYPICAL APPLICATIONS	RECOMMENDED SI (METRIC) UNITS		IMPERIAL UNIT	
	NAME	SYMBOL	NAME	SYMBOL
AREA				
Land area	hectare	ha	acre	
	square meter	m ²	square foot square inch	ft ² in ²
	square millimetre	mm ²	square inch	in ²
ELECTRICITY				
	ampere	A	ampere	A

CONTENTS

CE DECLARATION OF CONFORMITY DOCUMENT	1
HEALTH AND SAFETY RELATED STANDARDS APPLIED TO YOUR TRACTOR	2

Section – Page

Section 1

General information and safety measures	1-1
Tractor identification plates	1-2
Important ecological considerations	1-3
Always work safely	1-4
Working safely	1-5
Safety Decals	1-13
Tractor noise level information sheet	1-17
Tractor vibration level information sheet	1-18
Protection offered by the tractor	1-19
Machine stability	1-22
Fire or explosion prevention	1-25
Intended use of your tractor	1-26
Tractors main components	1-29

Section 2

Controls, instruments and operation	2-1
Before using the tractor	2-1
Control panel with analog instrument	2-2
Operation indicator light panel	2-3
Digital instrument control panel	2-7
Multifunction display	2-12
Control panel	2-28
Seat	2-33
Seat belts	2-34
Mechanical transmission (12F+12R)	2-36
Mechanical transmission (16F+16R)	2-37
Mechanical transmission (28F+16R)	2-39
Electrohydraulic transmission (16F+16R)	2-41
Transmissions 40 km/h	2-44

Section 3

Field operation	3-1
Starting and stopping	3-2
Brakes	3-6
Mechanically engaged 4WD	3-8
Hydraulically engaged 4WD	3-9
LIM-SLIP differential lock	3-10
Differential lock	3-11
Independent power take-off	3-13
Synchronized power take-off	3-14
Hydraulic lift with mechanical control	3-16
Three-point linkage	3-20
Implement linkage points	3-25
Rear remote auxiliary control valves	3-26
Track adjustment	3-31
Steering angle adjustment	3-34
Tyres	3-37
Metal ballast	3-47
Liquid ballasting	3-50
Maximum permitted weights	3-53

Section 4

Lubrication and maintenance	4-1
Access for inspection and maintenance	4-7
Lubrication and maintenance table	4-8
Flexible maintenance	4-11
Instrument panel warning lights	4-16
Every 10 hours of work	4-20
Every 50 hours of work	4-21
Every 100 hours of work	4-23
Every 300 hours of work	4-24
Every 600 hours of work	4-29
Every 1200 hours or every year	4-33
Every 1200 hours or every 2 years	4-35
Every 1800 hours of work	4-39
Electrical system	4-40
Recommendations for bodywork maintenance	4-53
Consumables	4-54

Section 5

Troubleshooting, causes and solutions	5-1
---	-----

Section 6

Prolonged tractor inactivity	6-1

--------------------------	-----

NOTICES TO USERS

SPARE PARTS

“Non-original” spare parts have not been tested or authorised by the Manufacturer. Installment and/or use of such products may adversely affect the tractor’s design specifications, thereby compromising operational safety. The manufacturer cannot be held responsible for any damage resulting from the use of “non-original” spare parts.

No modifications may be made to the tractor without written authorisation from the Manufacturer.

WARRANTY

The tractor is guaranteed in accordance with current legislation in your country and in line with contractual agreements reached with the dealer at the time of sale. However, the warranty is no longer valid if the rules and instructions for the use and maintenance of the tractor, described in this Manual, are not observed.

CLEANING THE TRACTOR

Your tractor is an advanced machine, fitted with an electrohydraulic control system. Care must be taken when cleaning the tractor, especially if a pressurized water cleaner is used.

- Never stand too close to the tractor or direct the water jet on electrical components, seals or intake openings, etc.
- Never direct jets of cold water at the hot engine or exhaust.

TRACTOR IDENTIFICATION

Serial numbers identify the tractor and its main components. The identification data must be supplied by the dealer for requests for spare parts or service operations. Identification data is of fundamental importance in the event of theft of the tractor. The location of the various identification data is shown below.

Engine identification data plate (on the engine block on the right-hand side (T4040 and T4050), (on the engine block on the left-hand side (T4020 and T4030).

Frame identification data plate.

MDF 400A

Frame and engine type identification data plate.

Tractor frame number identification data plate (stamped on the axle support under the bonnet).

IMPORTANT ECOLOGICAL CONSIDERATIONS

Soil, air and water are essential elements for agriculture and for life in general. If local legislation does not control the treatment of certain substances, the production of which is necessitated by advanced technologies, products derived from chemical and petrochemical products must be used and disposed of according to the rules of common sense.

The following recommendations may be of help:

- Find out what the relevant legislation in your country stipulates.
- Ask your suppliers of lubricants, oils, fuels, anti-freeze, detergents, etc. for information on the effects of these products on humans and the environment and for instructions concerning their use, storage and disposal. In many cases, local agricultural consultants will be able to provide assistance.

SUGGESTIONS

1. Avoid using unsuitable, pressurised filling systems or fuel cans when filling tanks, as these may cause considerable spillage and leakage of liquids.
2. As a general rule, do not allow liquid fuels, lubricants, acids, solvents, etc., to come into contact with the skin. The majority of these products contain substances that are potential health hazards.
3. Modern lubricants contain additives. Do not burn contaminated fuel oils and/or oils used in conventional heating systems.
4. Avoid spillage when transferring used engine cooling liquids, engine and transmission lubricants, hydraulic oils, brake fluids, etc.. Never mix used brake oil with fuel oil, or fuel oil with lubricants. Store safely until suitable disposal can be arranged according to national legislation or local regulations.
5. Modern anti-freeze liquids and solutions, e.g. anti-freeze and other additives, must be replaced every two years. They must not be left to be absorbed into the ground, but must be collected and disposed of in a suitable manner.
6. Do not open the air conditioning systems to carry out work. These systems contain gas that must not be released into the atmosphere. Contact your dealer or specialised personnel, who are equipped with the appropriate equipment and are authorised to re-fill the system.
7. Any leakage or defect in the engine cooling or hydraulic systems must be repaired immediately.
8. Do not increase the pressure in pressurised systems, as this may cause component parts to burst.
9. When welding, make sure that hoses are properly protected as sparks or molten material may puncture or weaken the tubes and sleeves, resulting in leakage of oil, cooling liquid, etc.
10. Do not adjust the setting of the fuel delivery system as this will alter the emission of exhaust fumes.

NOTE: THE ENGINES INSTALLED ON THE TRACTORS COMPLY WITH ANTI-POLLUTION LEGISLATION.

ALWAYS WORK SAFELY

This warning symbol points out important messages concerning your safety.

Read the following safety regulations carefully and follow the recommendations in order to avoid potential hazards and safeguard your health and safety.

In this manual the symbol is accompanied by the following keywords:

Indicates an immediate hazardous situation, that, if not avoided, will result in death or serious injury.

Indicates a potential hazardous situation that, if not avoided, could result in serious injury.

Indicates a potential hazardous situation that, if not avoided, may result in minor injury or machine damage. This can also be used to alert against unsafe practices.

Failure to observe the instructions preceded by the aforementioned key words may result in severe or fatal injury to the persons involved.

Furthermore, this manual also contains instructions preceded by the terms **NOTE** and **IMPORTANT**, with the following relevance in relation to machine protection:

IMPORTANT: This is used to highlight important information for machine usage or specific procedures to prevent minor machine damages.

NOTE: This is used to identify and present supplementary informations.

IMPORTANT WARNINGS

The machine is designed and produced exclusively for agricultural use.

All other use will be considered to be contrary to the use specified by NEW HOLLAND, who cannot be held liable for damage to property or the machine, or for personal injuries which may result.

Persons who risk improper use will therefore assume the responsibility for any consequences arising from such use.

Compliance with the instructions for use, maintenance and repairs described in this manual, are the essential preconditions for the use specified by NEW HOLLAND.

The machine must only be used, serviced or repaired by personnel trained in the relevant working methods and safety regulations and who have been authorised to work on the machine.

The user must also observe the rules concerning general safety and accident prevention, including the Highway Code when driving on public highways.

Any arbitrary modifications made to this machine will release NEW HOLLAND from any liability resulting from damage or injury.

NEW HOLLAND and all its distribution organisations, inclusive of, but not restricted to, national, regional or local distributors, cannot be held liable for damage resulting from the malfunction of parts and/or components not approved by NEW HOLLAND.

Under no circumstances will a guarantee be issued for products made or sold by NEW HOLLAND that are damaged as a result of the malfunction of parts and/or components not approved by NEW HOLLAND.
