# INTRODUCTION

This manual provides operation, maintenance, assembly and parts identification for your new front blade.

The New Holland Series 702C Front Blade is designed for use on New Holland TC35, TC35D, TC40, TC40D, TC45, TC45D 2WD, FWA and Super Steer tractors. The front blade is raised and angled right and left using hydraulic cylinders which are controlled to the tractors auxiliary valve.

Successful operation and long life of any implement depends on proper operation and care. Please read this manual carefully and follow all instructions. Correct operation and maintenance will save much time and expense.

This SAFETY ALERT SYMBOL identifies IMPORTANT SAFETY MESSAGES in this manual. OBSERVE and FOLLOW all SAFETY MESSAGES to prevent personal INJURY.

Reference to left and right used in this manual refer to the position when standing at rear of unit facing forward, unless otherwise specified.

If at any time you have a service problem with your front blade, or need parts, contact your local New Holland dealer.

Your dealer will need your front blade's serial and component numbers to give you prompt efficient service. Record your model, serial and component numbers below. Also record date of purchase.

Your front blade model, serial and component numbers are stamped on this plate located on the top front of the frame.
