David Brown Tractors Ltd

David Brown Tractors Ltd., will continue to improve their products. As a result, the specification details can have changes after this issue was made. Also, as the David Brown tractor is made to variable specifications for different uses and countries, this manual can give details of items which are not part of any specific tractor.

INTRODUCTION

Use this supplement for 1210 4 wheel drive tractors which are fitted with the David Brown front drive axle.

This supplement gives information for the operating and regular lubrication of the front axle and transfer gearbox.

The information in the 1210 Operator's Manual still applies to this model except for the details in this supplement.
