This will allow fast and targeted search and navigation between the various information modules.

This manual is organised according to types of function and information.

- The function and information types are codified and appear in parentheses after the title and separated by a dash:
(1) Function
(2) Information type.
- Only the first letter **(A)** and the first number **(B)** of the function need to be used for the information search.
 The first letter **(A)** corresponds to the sections of the repair manual.
 The first number **(B)** corresponds to the chapters of the repair manual.
 The first part of the **(A.B)** code is reflected in the page numbering.
 THE REST OF THE CODING IS NOT LISTED IN ALPHA-NUMERIC ORDER IN THIS MANUAL.
- You will find a table of contents at the beginning and end of each section and chapter.
 You will find an alphabetical index at the end of each chapter.
- Therefore it is the first part of the **(A.B)** coding, then the tables of contents and index (page numbers) which will allow you to quickly find the information you are looking for.
