INTRODUCTION TO THE REPAIR MANUAL

This manual has been designed so that in the near future it can be made available on CD and in a database via a computer network.

This will allow fast and targeted search and navigation between the various information modules.

Information search

CRIL03J033E01 1

This manual is organised according to types of function and information.

- The function and information types are codified and appear in parentheses after the title and separated by a dash:
 - (1) Function
 - (2) Information type.
- Only the first letter (**A**) and the first number (**B**) of the function need to be used for the information search.
 - The first letter (**A**) corresponds to the sections of the repair manual.
 - The first number (**B**) corresponds to the chapters of the repair manual.
 - The first part of the (**A.B**) code is reflected in the page numbering.
 - THE REST OF THE CODING IS NOT LISTED IN ALPHA-NUMERIC ORDER IN THIS MANUAL.
- You will find a table of contents at the beginning and end of each section and chapter. You will find an alphabetical index at the end of each chapter.
- Therefore it is the first part of the (**A.B**) coding, then the tables of contents and index (page numbers) which will allow you to quickly find the information you are looking for.
