Diesel Particulate Filter - Disassemble

SMCS - 108F-015

Disassembly Procedure

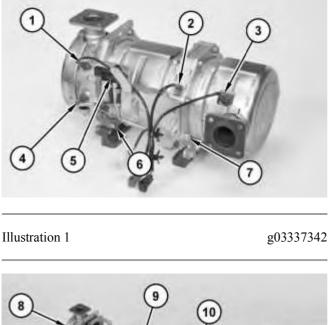

Wear goggles, gloves, protective clothing, and a National Institute for Occupational Safety and Health (NIOSH) approved P95 or N95 halfface respirator when handling a used Diesel Particulate Filter or Catalytic Converter Muffler. Failure to do so could result in personal injury.

NOTICE

Do not strike any part of the assembly of the Diesel Particulate Filter (DPF). Do not allow any object to contact the internal element of the DPF. If the internal element of the DPF becomes damaged, the assembly must be replaced.

1. Mark the position of components for installation purposes.

Diesel Particulate Filter - Assemble

SMCS - 108F-016

Assembly Procedure

Table 1			
Required Tools			
Tool	Part Number	Part Description	Qty
A	-	Locktite Nickel Anti Seize	1

Wear goggles, gloves, protective clothing, and a National Institute for Occupational Safety and Health (NIOSH) approved P95 or N95 halfface respirator when handling a used Diesel Particulate Filter or Catalytic Converter Muffler. Failure to do so could result in personal injury.

NOTICE

Do not strike any part of the assembly of the Diesel Particulate Filter (DPF). Do not allow any object to contact the internal element of the DPF. If the internal element of the DPF becomes damaged, the assembly must be replaced.

Note: After cleaning filter assembly or installing a new filter assembly, the Ash Service must be performed. Refer to Troubleshooting, UENR3423, "Cat ET Service Features - DPF Soot Load Reset".

Note: When installing a new DOC or DPF, Caterpillar recommends documenting the new component serial numbers on-line. Go to SIS Web and select "View More" under Additional Service Information. Select the "C3.3B and C3.8 Downloads" link. The new DOC or DPF serial numbers can be entered through the "C3.3B and C3.8 DPF / DOC Service Info Registration".
