to the purchaser

The purpose of this manual is to furnish valuable information about your new F930H Drawbar Cart and drawbar attachments. In it you will find instructions and helpful suggestions for operating, transporting, adjusting, lubricating, assembling, and servicing your new drawbar cart and drawbar attachments.

Keep this manual in a convenient place for quick and easy reference. Use it as a guide whenever questions arise.

You have purchased a dependable, sturdy machine, but only by proper care and operation can you expect to receive the service and long life designed and built into it.

If you need additional information, or if your drawbar cart and attachments require special servicing, see your John Deere dealer—he has all the facilities required to keep them

in A-1 condition. He will be glad to serve you.

Sometime in the future your drawbar cart and attachments may need new parts to replace worn or broken parts. If so, go to your John Deere dealer to obtain high-quality genuine John Deere parts. Inform your dealer concerning the type of drawbar cart and attachment you own and the date they were purchased. This information will help him to identify the part you need. We suggest that you record this information in the space provided below, thereby making it available for future reference.

Location reference

Right- and left-hand sides referred to in this manual are determined from a position at the rear of the machine facing in the direction of travel.
