LITHO IN U.S.A.
ENGLISH

INTRODUCTION

This safety alert symbol identifies important safety messages in this manual. When you see this symbol, be alert to the possibility of personal injury and carefully read the message that follows.

“Right-hand” and “left-hand” sides are determined by facing in the direction the blower will travel when in use.

Record your disk model and serial number in the space provided on page 30.

The general blower warranty appears on your copy of the purchase order which you should have received from your dealer when you purchased the disk.

This operator's manual contains SI Metric equivalents which follow immediately after the U.S. customary units of measure.

270 ROTARY SNOW BLOWER

TO THE DEALER

After the snow blower has been assembled and lubricated, inspect it thoroughly to be sure it is functioning properly before delivering it to the customer. The following check list is a reminder of points to check. Check off each item as it is found satisfactory or after proper adjustment has been made.

The John Deere Delivery Receipt, when properly filled out and signed by the dealer and customer, verifies that the predelivery and delivery services were satisfactorily performed. When delivering this machine, give the customer a copy of the delivery receipt and the operator's manual. Explain their purpose.

Be certain to retain your copy of the packing list for shipping bundle information.

PREDELIVERY CHECK LIST

The following check list is a reminder of points to inspect. Check off each item as it is found satisfactory or after proper adjustment is made.

- ☐ Check to be sure that all bolts are tight and all cotter pins are spread. See torque chart on 22.
- ☐ Lubricate all lubrication points. See pages 17-18.
- ☐ Paint all unpainted bolts and nuts and any parts scratched in shipment.
- ☐ Attach snow blower to tractor and operate for about one minute. Check for loose bolts, heating rotor bearings, binding parts, loose chain or other irregularities.
- ☐ Watch for signs of faulty operation or unusual sounds.
- ☐ After completing full-speed operation, stop snow blower and check the drive chain. If necessary, adjust tension. See page 20.
- ☐ Turn the discharge spout to make sure it is rotating smoothly.
- ☐ This snow blower has been tested and to the best of my knowledge, is ready for delivery to the customer.

DELIVERY CHECK LIST

The following check list is a reminder of very important information which should be conveyed directly to the customer at the time the snow blower is delivered. Check off each item as it is fully explained to the customer.

- ☐ Advise the customer that the life expectancy of this or any other machine is dependent on regular maintenance including lubrication and bolt torque.
- ☐ Tell the customer all about safety precautions that must be observed while using this snow blower.
- ☐ When the snow blower is transported on a road or highway at night or during the day, accessory lights and devices should be used for adequate warning to operators of other vehicles. In this regard, tell the customer to check local governmental regulations.
- ☐ Give the operator's manual to the customer and explain all operating adjustments.
- ☐ To the best of my knowledge, this machine has been delivered ready for field use and the customer has been fully informed as to proper care and operation.
