INTRODUCTION

Your new John Deere No. 3 Swath Fluffer is a dependable machine, and with proper care and operation you can expect to receive the service and long life designed and built into it. Like any precision machine, your fluffer will require a certain amount of attention at regular intervals. When any questions arise regarding lubrication, operation, or maintenance, use your manual as a guide to service your fluffer the RIGHT WAY.

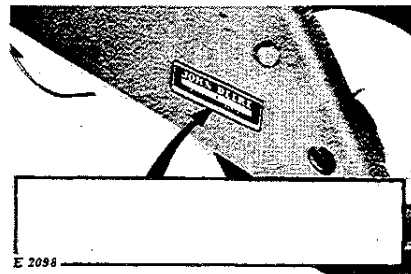

If you find yourself in need of additional information or special servicing not covered in this manual, see your John Deere dealer. He is in a position to answer your questions for you, or to secure the correct information.

When in need of parts, either to replace worn parts or to make emer-

gency repairs, see your John Deere dealer.

When ordering parts provide your dealer with the serial number of your Swath Fluffer. This information will help him to give you prompt and efficient service.

The serial number of your fluffer is located on the right-hand side panel. (Record it in the space below.)
