## AVOID ACCIDENTS

Most accidents, whether they occur in industry, on the farm, at home or on the highway, are caused by the failure of some individuals to follow simple and fundamental safety rules or precautions. For this reason MOST ACCIDENTS CAN BE PREVENTED by recognising the real cause and doing something about it before the accident occurs.

Regardless of the care used in the design and construction of any type of equipment there are conditions that cannot be completely safeguarded against without interfering with reasonable accessibility and efficient operation.

Carefully read indications, cautions and safety warning quoted in the "SAFETY RULES" section.

A careful operator is the best insurance against an accident.

The complete observance of one simple rule would prevent many thousand serious injuries each year.

That rule is:

**Never attempt to clean, oil or adjust a machine while it is in motion.**

### ATTENTION

*On machines having hydraulically, mechanically and/or cable controlled equipment (such as shovels, loaders, dozers, scrapers etc.) be certain the equipment is lowered to the ground before servicing, adjusting and/or repairing.*

*If it is necessary to have the equipment partially or fully raised to gain access to certain items, be sure the equipment is suitably supported by means other than the hydraulic lift cylinders, cable and/or mechanical device used for controlling the equipment.*

| Measuring hydraulic oil pressure .....                       | 7-5   |
| Measuring travel performances .....                          | 7-8   |
| Measuring slew performances .....                            | 7-10  |
| Measuring attachment operating performances .....            | 7-12  |
| Measuring slew bearing performances .....                    | 7-14  |
| Measuring crawler tension .....                              | 7-15  |

## SECTIONS INDEX

---

### **SECTION 8 - HYDRAULIC SYSTEM**

|  |     |
|--|-----|
| Function and features of hydraulic circuit ..... | 8-1 |
| Hydraulic circuits and components .....          | 8-2 |
| Hydraulic circuit operation .....                | 8-6 |

### **SECTION 9 - ELECTRICAL SYSTEM**

|                                   |     |
|-----------------------------------|-----|
| How to read circuit diagram ..... | 9-1 |
|-----------------------------------|-----|

### **SECTION 10 - ATTACHMENT**

|                                |       |
|--------------------------------|-------|
| Attachment assy and name ..... | 10-1  |
| Bucket .....                   | 10-2  |
| Arm .....                      | 10-5  |
| Boom .....                     | 10-10 |
| Swing .....                    | 10-15 |
| Dozer .....                    | 10-22 |
| Hydraulic cylinders .....      | 10-26 |

### **SECTION 11 - UPPER STRUCTURE**

|                          |        |
|--------------------------|--------|
| Canopy .....             | 11-1   |
| Cab .....                | 11-4   |
| Guard .....              | 11-6   |
| Floor plate .....        | 11-10  |
| Battery .....            | 11-13  |
| Counterweight .....      | 11-14  |
| Fuel tank .....          | 11-17  |
| Hydraulic oil tank ..... | 11-20  |
| Air cleaner .....        | 11-25  |
| Muffler .....            | 11-27  |
| Hydraulic pump .....     | 11-28  |
| Radiator .....           | 11-43  |
| Engine .....             | 11-47  |
| Control valve .....      | 11-49  |
| Solenoid valve .....     | 11-84  |
| Pilot valve .....        | 11-86  |
| Pilot valve travel ..... | 11-96  |
| Slew motor .....         | 11-105 |
| Joint swivel .....       | 11-139 |
| Selector valve .....     | 11-154 |
| Upper frame .....        | 11-159 |

### **SECTION 12 - TRAVEL SYSTEM**

|                      |       |
|----------------------|-------|
| Low structure .....  | 12-1  |
| Crawler .....        | 12-3  |
| Slide plate .....    | 12-12 |
| Roller tracks .....  | 12-14 |
| Idler adjuster ..... | 12-19 |
| Sprocket .....       | 12-28 |
| Travel motor .....   | 12-29 |
| Slew bearing .....   | 12-71 |
| Lower frame .....    | 12-76 |

### **SECTION 13 - TROUBLESHOOTING HYDRAULIC SYSTEM**

|                                    |      |
|------------------------------------|------|
| General precautions .....          | 13-1 |
| Trouble diagnosis: Hydraulic ..... | 13-2 |
| Troubleshooting .....              | 13-3 |

### **SECTION 14 - TROUBLESHOOTING ELECTRICAL SYSTEM**

|                                     |      |
|-------------------------------------|------|
| Trouble diagnosis: Electrical ..... | 14-1 |
| Troubleshooting .....               | 14-2 |

---

## SECTIONS INDEX

---

### **SECTION 15 - TROUBLESHOOTING ENGINE**

|                                 |      |
|---------------------------------|------|
| Trouble diagnosis: Engine ..... | 15-1 |
| Troubleshooting .....           | 15-2 |

### **SECTION 16 - ENGINE**

|  |        |
|--|--------|
| Specifications and Performance .....   | 16-1   |
| Cross Sectional Views .....  | 16-15  |
| Cooling water, lubricating oil and fuel oil .....  | 16-17  |
| Troubleshooting .....  | 16-21  |
| Measuring instruments .....  | 16-25  |
| Measurement, inspection and adjustment .....   | 16-29  |
| Adjustment the valve head clearance .....  | 16-31  |
| Checking the v-belt tension .....  | 16-32  |
| Measuring and checking the injection pressure and spray patterns of the fuel injection valve ..... | 16-32  |
| Checking and adjustament the fuel injection timing .....   | 16-36  |
| Adjustament the no-load maximum (or minimum) revolutions .....                                     | 16-38  |
| Checking the cooling water system and radiator for water leakage .....                             | 16-38  |
| Checking the battery .....   | 16-39  |
| Checking the sensors .....   | 16-41  |
| Checking the oil cooler .....  | 16-42  |
| Checking the piston cooling nozzle .....   | 16-43  |
| Measuring Procedure, Service Data and Corrective Action .....                                      | 16-45  |
| Disassembly and reassembly .....   | 16-73  |
| Service data .....   | 16-83  |
| Tightening torque .....  | 16-89  |
| Fuel injection pump for indirect injection system .....  | 16-91  |
| Fuel Injection Pump for Direct Injection System .....  | 16-97  |
| Governor .....   | 16-111 |
| Turbocharger .....   | 16-123 |

## INTRODUCTION

### INTRODUCTION

This service manual has been prepared in order to increase repair quality, providing to the technicians the elements for a good knowledge of the product and showing the proper procedures to carry out the maintenance operations. We recommend to thoroughly read the content and follow it when necessary.

It is a concise guide. It covers construction features, operation principle, troubleshooting, disassembly and assembly of components and repair action.

Using this manual in systematic and rational way it is possible to reduce the repairing errors and delay that could cause machine stop with a detriment of cost management.

The information quoted in this service manual are supplied also to be used for training aids. Therefore it is advisable to be used in the training of new personnel that will be employed in the machine maintenance.

All the information, illustrations and specifications contained in this service manual are based on the latest product information available at the time of publication.

The dealer reserves the right to make changes at any time without notice to this service manual for technical or trading reasons.

## MANUAL HANDLING

### CHANGES AND SUPPLEMENTS

This service manual is carried out in loose-leaf and therefore can be easily kept up-to-date.

The personnel in charge is responsible for updating the manual and will insert the changes or supplements that the Dealer will issue to its service organisation.
